

My Air Cond | My Choice

AVR Carefree Series | AVR *ECCO*⁺plus

VARIABLE REFRIGERANT FLOW (VRF)

Features

- IPLV up to 7.15
- 120m long connection pipe without performance degradation
- Triple backup operation guarantee function
- Double silent mode
- Smart room card function
- Dual power failure protection function
- Multiple static pressures available for the ODU
- Unit with built-in ModBus protocol gateway

VRA

Variable Refrigerant Air-cond

Features

- R410A leading-edge inverter technology
- Precise temperature control
- Rapid cooling
- Low inrush current
- Expandable capacity
- Redundant operation
- Diverse system solution
- Supply fresh air regulation
- Relative humidity control
- Ez-Comm for ModBus communication
