2 Stage Filtration System

The Acson Mini Cordless Vacuum Cleaner features a 2-stage filtration system to ensure clean air output. The first stage is a fine steel primary filter that effectively captures large particles such as hair and pet fur.

The second stage is a secondary filter that filters out dust particles with a diameter of $5\mu\text{m}$ or more. With this advanced filtration system, you can be confident that your home or car will be free from dust, dirt, and other airborne pollutants.

Detachable & Washable Filter

The dust cup filtration parts can be detached for cleaning purpose to ensure higher efficiency of the vacuum cleaner.

1. Pull out the dust cup directly from the unit to clean the dust cup.

2. Pull out the filter screen and empty the contents in the dust cup into trash can.

Lightweight and Portable

This unit is designed with convenience in mind which it is incredibly lightweight and easy to carry around. With its convenient strap at the top of the unit, you can effortlessly transport it from room to room, making it the perfect choice for busy households and offices.

Compact Size, Easy Storage

This vacuum cleaner is small, light, and easy to store, making it perfect for on-the-go usage. Simply pop it into your bag and take it with you wherever you need it. With its compact size and portability, this vacuum cleaner is the perfect cleaning tool for busy lifestyles.

*Caution:

Do not leave or store the vacuum cleaner under direct sunlight to prevent any potential danger especially in the car on hot summer days.

One Button Operation

This unit is designed for ease of use, featuring a simple one-button operation that enables all functions, including power on/off and suction level control. This user-friendly design makes it effortless to operate the unit, allowing you to focus on your cleaning tasks with ease.
