

AROMA DIFFUSER

AROMA DIFFUSER

Nature Breeze for Every Moment

Aroma diffuser or essential oil diffuser adopts the principle of ultrasonic atomization. During the process of dispersing the essential oil, the room is filled with the fragrance. It could act as a humidifier to retain the moisture in the air if no essential oil is added.

Rainbow Coloured Ambient Lighting

It could be used as an alternative source of night light with relaxing ambient lighting that ease your mind. By activating the Rainbow Mode, the unit will switch between seven different colours of ambient lighting. Users could fix it at certain colour of their choice.

130ml Large Water Tank

Essential oil is dispersed through high frequency oscillation for up to four hours (depending on mist setting) with this large water tank. Two modes are available: Continuous Mode and Interval Mode.

Simple and Elegant Button

This product is designed to be operated easily, enabling a hassle free user experience. When the unit is connected to USB cable and turned on, yellow light will flash for once. Beep sound will be heard to indicate unit in Standby Mode.

AAD13A

AROMA DIFFUSER

Product	Aroma Diffuser
Model Name	AAD13A
Volume	130 ml
Applicable Floor Area	<15 m ²
Rated Voltage	5V
Rated Power	5W
Net Weight	0.24 kg
Unit Dimension (HxWxD)	160 x 106 x 106 mm
Material	PP

Remark:

Both AAD13A & AAD20B are equipped with low water level protection mode. When the water level is lower than minimum water level, unit will stop the misting automatically. This safety feature provides a peace of mind user experience.

Unique Product Design

Patented splashboard design that look like a green seedling. It marks the water level inside water tank, as well as preventing water from splashing on table when user refilling the essential oil.

100% NATURAL ESSENTIAL OIL

Essential oils play a role in giving the distinctive smell in plants and help in plant pollination. Being known for their beautiful fragrance, essential oils have been applied in various fields including healthcare and beauty industries. These volatile aromatic compounds are naturally discovered in different parts of the plants - seeds, bark, stems, roots and flowers etc.

The nature of an essential oil varies from plant to plant, and from species to species. The delicate ratio of aromatic constituents found in any given essential oil are what make it unique. Essential oils can be used for a wide range of emotional and physical wellness practices. They could be used as single essential oil or in complex oil blend depending on user preference and desired benefits.

Safety Instructions:

- The essential oils are strictly for external use only, please avoid direct contact with eyes or direct apply on skin.
- Keep out of reach to children below 6 years old.
- Do not use it if pregnant. This product is not suitable for lactating mothers.
- Please store the product in a cool dry place and keep away from direct sunlight exposure.
- Please stop using if allergic reactions occurred.

Our product do not contain:

- NO addition preservatives.
- NO artificial colouring and fragrance.
- NO paraben, sulphates (SLS/ SLES) and EDTA.

Remark:

The essential oils are tested by SGS for toxins and dangerous materials. The results shown that Acson essential oil are RoHS compliance that it do not contain lead (Pb), mercury (Hg), cadmium (Cd) and other harmful substances. This 100% natural essential oil is safe to use and toxin free that the consumers can use with confidence.
